

## A PRIZE FOR MARCONI

In Recognition of His Achievements With Wireless Telegraphy—Prof. Braun to Be Honored Also.

(Herald Special.)

Stockholm, Dec. 8.—It is learned from a reliable source that the next Nobel prize for physics will be divided between Signor Marconi and Prof. Ferdinand Karl Braun, of Strassburg University. Official announcement of the awards for the year will be made by the Norwegian Storting day after tomorrow. The honor will come to Signor Marconi, who is equally well known on both sides of the Atlantic, in recognition of his achievements with wireless telegraphy. Prof. Braun is to share the honor, it is said, because of his invention of various improvements in the Marconi system of wireless telegraphy. No authoritative intimation has been given as to who is to receive the peace prize or the annual awards for literature, medicine or chemistry.

The Nobel prizes, numbering five, of the average value of \$40,000 each, are given annually to those who have done the most useful work during the year in literature, physical science, chemistry, physiology or medicine and for the propagation of peace.

The Nobel Foundation, which has the awards in charge, was established by the inventor of dynamite, the Swedish scientist, Alfred Bernhard Nobel, in a will which he made in 1895. The inventor's fortune of \$9,000,000 was devoted to capitalizing the prizes, and the administration of the foundation and awards of prizes are in the hands of the Swedish learned academies and, for the peace prize, a committee of the Norwegian Storting. The prizes were first awarded in 1901, the distribution taking place annually on December 10, the anniversary of Nobel's death.

The prizes may be divided and may be given to women. Mme. Curie being a former winner of the chemistry prize. In 1906 President Roosevelt was awarded the prize for the propagation of peace in recognition of his efforts in bringing to a close the war between Russia and Japan.

### ADVICE TO WOMEN.

A Message From a Famous Beauty Specialist to Women Lacking in Energy and Vitality.

They are the women who are suffering from their complexion and to remove blackheads, crows' feet and other blemishes through the use of cosmetics. This treatment fails because the trouble lies far deeper than the skin. They are suffering from

impure and impoverished blood. This condition is in many cases due to a catarrhal condition of the whole system which finds its expression in sallow, muddy complexion, dark-circled eyes, general weakness of the system, and perhaps most plainly in the weeping of mucous membranes that is commonly called catarrh.

In fact this whole tendency is, properly speaking, catarrh. Banish this catarrh, and the complexion will clear, as if by magic, eyes will brighten, faces become rosy and shoulders erect. Perfect beauty goes only with perfect health, and perfect health for women can only be obtained through one certain treatment—that which will cure catarrh.

Mme. Swift, New York, the famous beauty specialist known throughout the world and an accepted authority on all relating thereto, states that the one positive and permanent relief for catarrh is Rexall Mucu-Tone. Here is her letter:

"I can strongly endorse the claims made for Rexall Mucu-Tone as a cure for systemic catarrh. Its tonic effects are remarkable. It builds up the strength and restores vitality. If women who are tired and run down, lacking in energy and vitality, will use Rexall Mucu-Tone, they will praise as I do its strengthening and healing qualities."

Rexall Mucu-Tone works through the blood, acting thus upon the mucous cells—the congestion and inflammation of which causes local catarrh. This remedy causes poison to be expelled from the system, and the blood is purified and revitalized. Thus the natural functions of the mucous cells are restored, and the membranes are cleansed and made strong. We know that Rexall Mucu-Tone does relieve

## DEVELOP THE WATERWAYS

Sixth Annual Convention of the National Rivers and Harbors Congress Opened Today.

(Herald Special.)

Washington, D. C., Dec. 8.—With President Taft as the central figure and with upwards of 2,500 delegates in attendance, the sixth annual convention of the National Rivers and Harbors Congress was opened here today. The congress is national in its purpose, representing all sections and all waterways, and is endeavoring to impress congress with the necessity of a comprehensive policy for improving rivers, harbors and canals for the nation.

In point of attendance and enthusiasm the present gathering promises to be the greatest demonstration of the supporters of the deep waterways movement that has ever been held in America. Senators, representatives, diplomats, captains of finance, governors of states and others high in official life filled the large assembly room of the New Willard Hotel and applauded President Taft at the conclusion of his opening address, in which he expressed his warm interest in the movement for the development of the nation's waterways and defined his views in regard to the best policy to be pursued by the government in carrying out the projects now under way. The president was introduced by Representative Joseph E. Ransdell of Louisiana, who is president of the congress. President Taft was followed by Governor Harmon of Ohio, who spoke upon "The Duty of the Government Toward Its Water-

State Bar Association to be held in the assembly chamber tomorrow evening for the purpose of commemorating the life and public services of the late Justice Rufus W. Peckham of the United States supreme court. The program for the memorial meeting provides for addresses by United States Senator Elihu Root, Governor Hughes and others.

catarrh. We positively guarantee to refund the money paid us for this remedy in every case where the user is dissatisfied. It is a builder of vigorous health and a creator of good complexions. Price 50 cents and \$1.00 per bottle. Mail orders filled. It may be obtained only at our stores—The Rexall Stores, Bratton Drug Co., either store, Oak or Spring street.

### Bjornson's Condition Critical.

Paris, Dec. 8.—Bjornstjerne Bjornson, the famous Norwegian poet, playwright and publicist, entered upon his eightieth year today, having been born in Osterdalen, Norway, Dec. 8, 1832. The poet is now in Paris, whither he was brought from his home in Norway in the hope that an operation might afford relief from the complication of ailments from which he has suffered for several years. His present condition is regarded as critical in the extreme. The physicians, in fact, hold out no hope that he will ever be able to leave his bed, and in view of his age it is not believed that he can long survive.

### How One Doctor Successfully Treats Pneumonia.

"In treating pneumonia," says Dr. W. J. Smith of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While, of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife, for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." For sale by Bratton Drug Co.

ways," dwelling at considerable length upon the advisability of completing the improvement of the Ohio river channel before undertaking the various Mississippi river projects.

The business sessions of the congress are to continue three days and addresses and papers will be presented covering practically every phase of the waterways movement by men thoroughly familiar with the subject. Secretary of War Dickinson, whose recent travels through the west and south greatly impressed him with the necessity of deepening the rivers and harbors, has promised to address the congress. Other speakers will include representatives of the Lakes-to-the-Gulf Association, the Ohio Valley Improvement Association, the Atlantic Deepwaterways Association, the Tennessee River Improvement Association, the Missouri River Improvement Association, the Upper Mississippi Association, the Connecticut River Improvement Association, and various other organizations of similar purpose that exist in different parts of the United States.

### A Policeman's Testimony.

J. N. Paterson, night policeman of Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least half a dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." Bratton Drug Co.

### To Honor Peckham's Memory.

(Herald Special.) Albany, N. Y., Dec. 8.—Arrangements have been concluded for the special meeting of the New York

### RADIANT HAIR.

New York Society Women's Hair Matched Only By Parisians.

For many years the clever women of Paris have been famed for the magnificent beauty of their hair.

"Glorious hair," a Virginian calls it; "so radiant and luxuriant that it not only attracts but fascinates, and compels unstinted admiration."

But now that the elite of New York, ever anxious to improve their beauty, have learned that Parisian Sage, a remarkable and almost marvelous hair nourisher and beautifier, is almost entirely responsible for the charming hair of the ladies of France, the demand for it has become enormous.

A Philadelphia chemist who analyzed Parisian Sage said: "It is the ideal dressing for the hair. The ingredients are so scientifically combined that Parisian Sage is first of all a hair grower, because it surely destroys dandruff germs, and nourishes the hair roots."

"Second, it puts life, substance and brilliancy into the hair, which improves the attractiveness of any one."

"Third, it is very delicately scented; is not a particle sticky or greasy, and does not contain one atom of anything that could possibly injure scalp or hair."

Parisian Sage is now sold all over America by progressive druggists, and in Palestine by Bratton Drug Co., who are glad to guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back.

Price 50 cents. Made in America by Groux Mfg. Co., Buffalo, N. Y., who fill mail orders. The girl with the Auburn hair is on every package.

## TWO DRAFT TEAMS THAT WERE SENSATION OF NEW YORK HORSE SHOW.

Draft horse competitions were a new feature of the New York horse show this year, and the prizes offered attracted the finest array of Clydesdales and Percherons ever assembled in the east. Two teams that attracted much attention were those entered by the Morris and Armour beef companies. The aggregate weight of the six horses in either team exceeds 12,000 pounds. The gray team in the accompanying illustration belongs to the Armour company and the other team to Morris. Both teams were taken from the New York show to the big live stock exposition in Chicago.
